

## Questys Mobile iPad Web Access

A recent survey has determined that Apple remains dominant in the enterprise tablet market, with over 97% of activations being iPads. The new iPad 3 is now considered the de-facto standard for enterprise tablet computing. Executives and employees like having the flexibility of using an iPad versus a laptop when in meetings and out in the field.

Questys Mobile iPad Web Access expands the value of Questys Content Management and Legislative Agenda Management by allowing users to securely manage their agenda items in meetings and access documents via the Apple iPad. Whether you are working remotely or in the field, Questys Mobile iPad Web Access empowers users to stay connected.

### Manage Your Agenda Items in Meetings

Why bring your laptop to a meeting when you can manage your agenda items from an Apple iPad! Legislator members can review the agenda packet and take confidential notes. Perform all of the Clerk's functions including taking roll call, voting on agenda items, adding comments within the Legislator workpad and search and retrieval on agenda back-up documents.

### Browse and Search Your Documents with Ease

Questys Mobile iPad Web Access expands the value of content management by providing secure access to documents via the Apple iPad. Users can browse, search and retrieve documents directly from the Apple iPad tablet.

Users can search for documents using full text search keywords on metadata. Download and view Microsoft Office documents, TIFFs and PDF files. Securely copy, move, rename or delete documents. You can even print documents to AirPrint printers!

#### Additional Requirements:

Questys Mobile iPad Web Access requires the Questys CMx Web Module. Accessibility will depend on your CMx and LSx licensing.

### The Bottom Line

Questys Mobile iPad Web Access allows users to manage their agenda packet in meetings and provides secure access to documents and metadata from your Apple iPad. Why bring a laptop to a meeting when you can bring your Apple iPad tablet!

### Access Data from an Apple iPad:

#### Manage agenda items in meetings:

- Review the agenda packet
- Take roll call
- Vote on agenda items
- Comment in the Legislator workpad

#### Browse & Search documents:

- Search and retrieve documents
- Download and view Microsoft Office documents, TIFFs and PDFs
- Securely copy, move, rename or delete documents
