

Document Management Products

Since 1980, Questys Solutions® has been enabling people to be more productive in managing electronic documents in a secure and compliant way within an easy-to-use environment. Thousands of users and organizations around the world — including federal, state and local government agencies and Fortune 1000 companies— use Questys Solutions to streamline documents, agendas, records and business process management to drive efficiency and interoperability.

Content Management (CMx) — Electronic Document and Content Management

Scan paper documents, import electronic files and e-mail, then OCR, edit, and store your information in electronic format for instant retrieval.

WorkFlow (WfX) — Automated Business Process Management

Streamline your organization with electronic workflow and business process management.

LegisStream® (LSx) — Automated Legislative Agenda Management

Automate your entire agenda process, LegisStream is the solution to your agenda development and management needs. Available as a hosted or on-premise solution.

Capture

Easily input information into Questys CMx with data entry automation and indexing that easily integrates with other applications. Includes zonal OCR, barcode recognition, text parsing, and more.

Web Access

Secure access to documents from anywhere in the world via the Internet or Intranet. Questys Web gives you all the document creation, search and retrieval capabilities as the Questys Base Server.

Mobile iPad Web Access

Why bring a laptop to a meeting when you can bring an Apple iPad? Securely manage your agenda items in meetings and access documents via the Apple iPad.

Questys Connect

Enables virtually any application integration within your organization without writing code and allows you to effortlessly submit documents to, and retrieve from, your CMx repository directly from within all your applications. Rapidly utilize, instead of rip and replace, current technology assets with minimal effort and cost.
