

# Transportation

*Move documents faster so you can move more loads*

## Simplifying Business, Maximizing Productivity

Constrained by unforgiving deadlines and stringent tracking and reporting requirements, transportation and logistics management companies are constantly searching for smarter and more affordable ways to unleash productivity. The time needed to file, retrieve and reference shipping forms, driver logs and invoices is a costly administrative nightmare. You need an affordable and effective solution that can quickly transform their offices into a more efficient and collaborative working environment.

## Expedite Processes and Enhance Customer Service

Questys is a simple solution that allows users to search, store and retrieve scanned paper documents and electronic files associated with a specific shipment or account in seconds. This quick search functionality dramatically increases customer response times and improves overall productivity. Automating with Questys WFX Workflow takes business productivity and process automation to the next level by integrating electronic and paper documents directly into your business processes.

## Additional Benefits

- Address regulatory requirements for storing driver's logs, accounting records and other documents as mandated by Federal Motor Carrier and Safety regulations.
- Keyword and full-text OCR searches instantly locate desired files and/or individual documents.
- Save directly from Microsoft and other third-party software applications.
- Category-specific document retention rules assure that information is kept for the appropriate period of time.
- Complete backup and restore procedures make disaster recovery easily scalability and cost-effective.
- Simplify filing via system-generated bar code cover pages for scanned documents, and drag-and-drop functionality for electronic files.

## The Questys Advantage

Affordable and easy-to-deploy, Questys is ideal for transportation and logistics businesses whose budgets and IT resources are limited. This intuitive software helps companies:

- Easily integrate paper records, reports, and electronic files
- Accelerate routing and approval processes
- Minimize the amount of time and resources spent
- Expedite invoicing and accounts receivable
- Improve customer service
- Access business records from remote locations
- Protect against loss or damage to vital records
- Address regulations and mandates
- Centralize storage of files and documents
- Enhance workforce productivity and accountability
