QUESTYS CAPTURE

QUESTYS
People More Productive

Any organization that uses computers performs data entry. It is a time consuming, error-prone, and costly process.

❯ Questys Does the Work for You

Questys Capture is a **tool that** simplifies your **data entry process**. With advanced optical character recognition technology to automatically extract important data from scanned images, PDF files, printed documents, emails, websites, databases or spreadsheets.

Questys Capture recognizes many barcode types, regardless of where they appear on the page.

❯ The Bottom Line

Questys Capture allows you to fully automate data entry. Creates smart , intuitive workflows with various integrations that make capturing data and adding it into your ERP or other systems simple and seamless.

Manual data entry into your document management system or other application can be costly and time consuming. Studies show that one-third of the time spent in the workplace is spent collecting and processing data.

With so many capabilities, Capture drastically reduces, even eliminates, the manual data entry process associated with electronic document management.

Let us show you how to improve that process.
