People More Productive

Transform Your Local Government Finance Operations

Ready to usher in a new era of streamlined efficiency and unwavering compliance?

In the realm of local government finance offices, challenges abound. The burden of paper-based processes, the complexities of audits and the demands of compliance can weigh heavily on these crucial operations. Enter Questys Document Management—an advanced solution meticulously crafted to address these pain points and usher in a new era of streamlined efficiency and unwavering compliance.

Navigating the digital landscape

Imagine bidding farewell to the mountains of paper and the tedious data entry tasks that have long plagued local government finance offices. Questys is here to make that vision a reality. Questys expertly digitizes invoices and intelligently indexes financial documents for secure storage and instantaneous retrieval. The days of laboriously sifting through paper files are over; with Questys, finance professionals can access critical information at their fingertips through a simple and intuitive digital interface.

Seamless approvals and workflow automation

The complicated approval processes that once caused bottlenecks and delays are now a thing of the past. Questys offers a seamless solution with automated approval notifications that expedite payment processes and empower finance teams to collaborate effortlessly. No longer confined by the limitations of paper-based workflows, local government finance offices can now move swiftly and decisively.

Elevating transparency and compliance

Government transparency initiatives and regulatory compliance are paramount concerns for local government finance offices. Questys rises to the challenge, providing a secure environment for sensitive financial documents and personal data. Moreover, its innovative redaction feature ensures the creation of public-facing documents that uphold transparency without compromising private information.

Centralized document management

Managing forms, storing documents and maintaining version control can be

THE QUESTYS PORTFOLIO

Electronic Content Management
We enable organizations to deliver relevant content to users where and when they need it as well as eliminate ad hoc processes that can expose an organization to regulatory compliance risks and security issues.

Workflow Automation
Whether personnel are across the hall, across the city or across the country, Questys Workflow Automation WFx promotes increased workplace organization, productivity and accountability, while helping to reduce project time and costs.

Agenda & Meeting Management
For city managers, county clerks and other administrators, the Questys solution captures and manages physical records electronically, and automates agenda processes such as legislative publishing, roll-calls and vote tabulation.
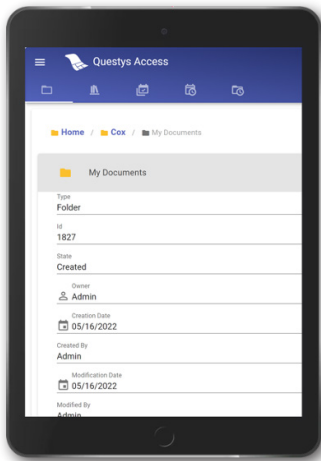

Forms Automation
Questys Capture uses OCR to extract data from contracts, forms, invoices, letters, etc., for automated insertion into your Questys CMx at the same low price no matter how much paper you process.

Questys Access
Questys Access empowers seamless document management and collaboration though a modern web-based interface that allows for anytime, anywhere access, whether you're in the office, at home or on the road.

a cumbersome task. Questys simplifies these tasks through its centralized repository and automated processes. This means no more hunting for elusive documents or grappling with outdated form versions—everything is conveniently accessible within the Questys ecosystem.

Efficient payment tracking and committee reporting

Tracking individual payments, preparing budget reports and putting together committee agendas often require meticulous attention to detail. Questys simplifies these tasks to enhance your financial record-keeping and streamline your reporting processes. For example, using our Agenda Management solution, you can quickly auto-generate your agenda packet, convert it to PDF and publish to your Website simply and effortlessly.

OCR technology: A leap towards efficiency

Bid farewell to the era of manual data entry fraught with errors. Questys harnesses the power of Optical Character Recognition (OCR) technology to search unstructured documents such as images and PDFs for keywords and phrases. Not only that, but Questys allows you to search and retrieve content fast using a wide range of criteria, metadata or full text.

The result? A reduction in errors and a significant boost in efficiency.

Unlock the potential: embrace Questys Document Management

In the world of local government finance operations, Questys Document Management is more than just a solution—it's a transformational tool. It empowers local government finance offices to navigate the digital landscape with confidence, harnessing technology to enhance efficiency, compliance and collaboration. With Questys, local government finance offices can step into a future where paper-based challenges are replaced by seamless digital processes that drive progress and excellence.

QUESTYS BENEFITS

Improved productivity
Enterprise Content Management software allows business to automate their document-related processes, saving time and effort.

Content control
Advanced security features such as access controls, encryption and audit trails, which help protect sensitive information from unauthorized access.

Enhanced collaboration
Questys makes it easy for teams to collaborate on documents by providing tools for version control, commenting and document sharing.

Regulatory compliance
Meet industry regulatory compliance requirements that mandate content management, visibility and protection of sensitive information.

Flexibility
On-prem, cloud and hybrid deployment models with 100% feature parity.
